

A

Participant 75y1tqf2

Overall severity: MINIMAL (likert total 0/45)

Choice consistency: 62% – low – choices near random; rely on severity score and interview

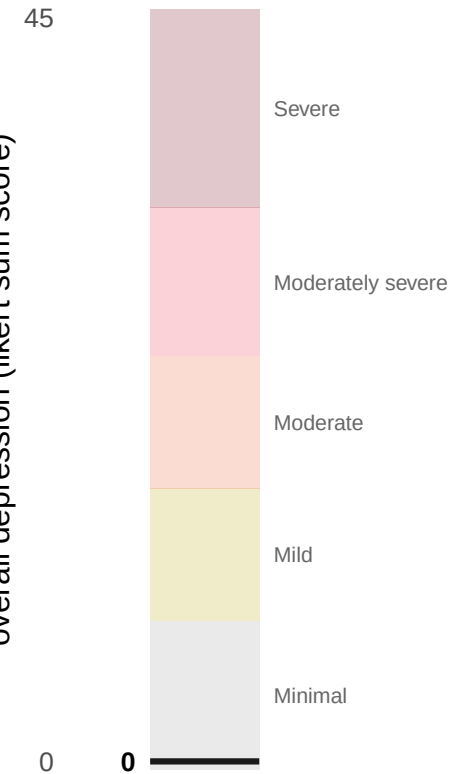

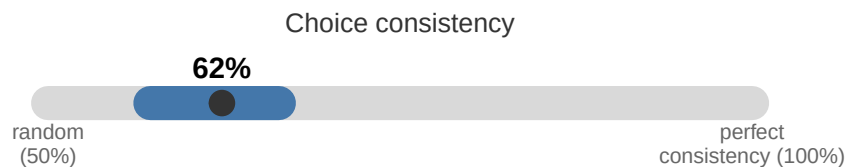

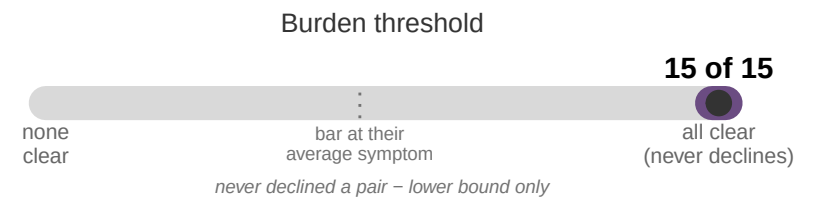

Burden threshold: 15 of 15 symptoms clear it [15–15] – never declined a pair – bar sits below every symptom, lower bound only

B

self-rated frequency

Not at all Several days More than half the days Nearly every day

positions are relative to this person's own symptoms; items within a tier are statistically tied

C**D****E**

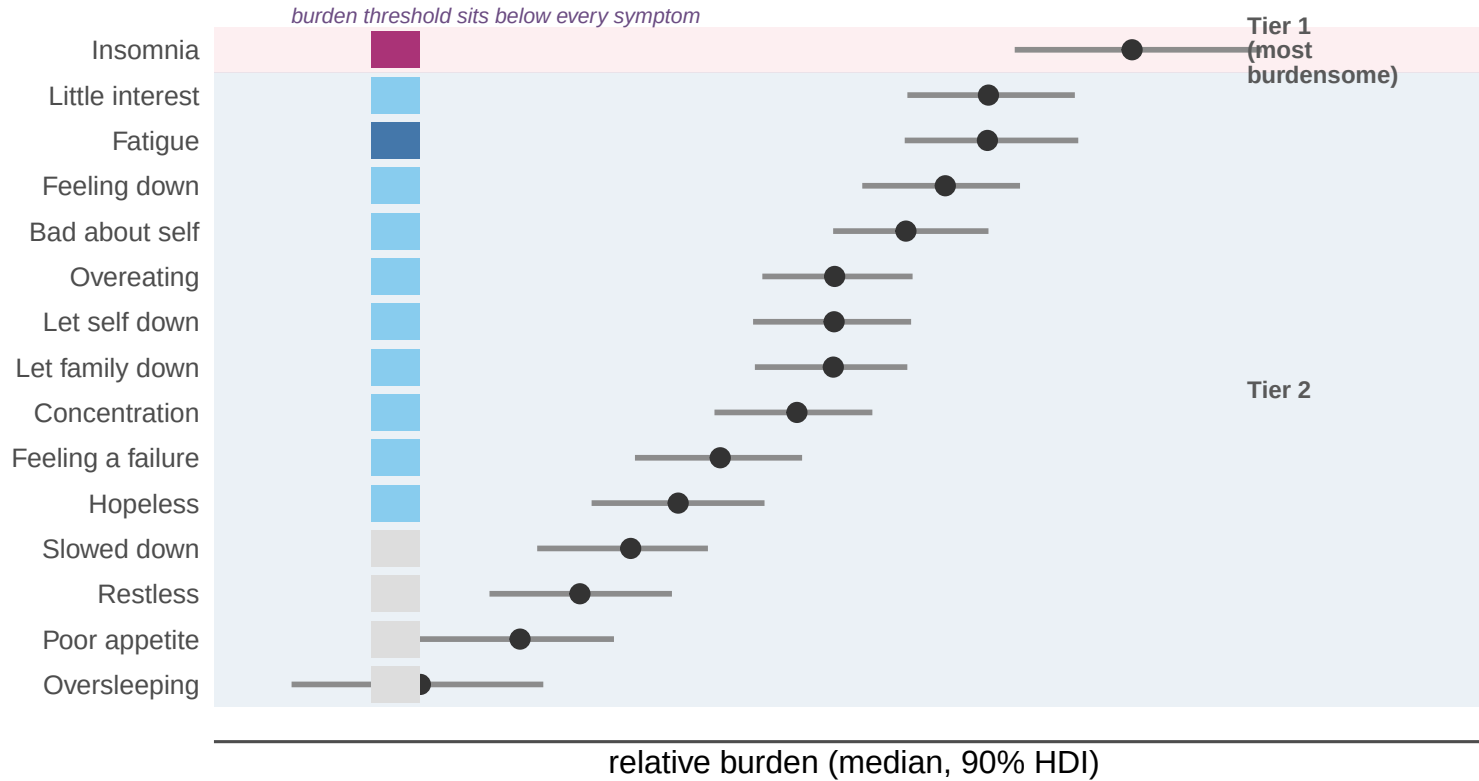

A

Participant 7v1pxg3v

Overall severity: MILD (likert total 14/45)

Choice consistency: 87% – high – ordering can be discussed with confidence

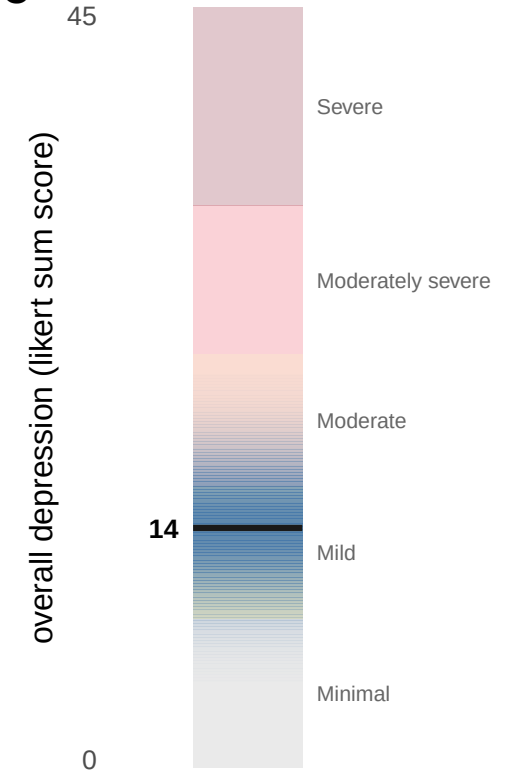

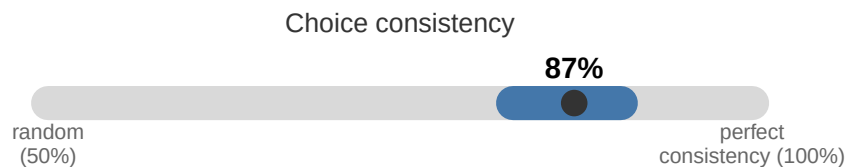

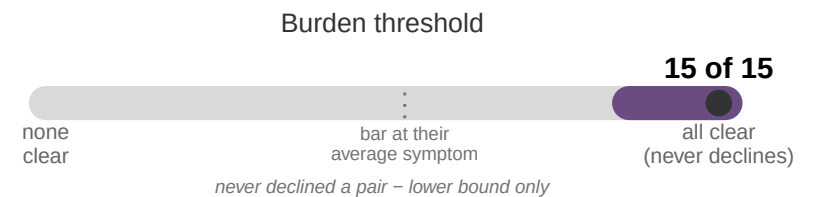

Burden threshold: 15 of 15 symptoms clear it [13–15] – never declined a pair – bar sits below every symptom, lower bound only

B

self-rated frequency

Not at all Several days More than half the days Nearly every day

positions are relative to this person's own symptoms; items within a tier are statistically tied

C**D****E**

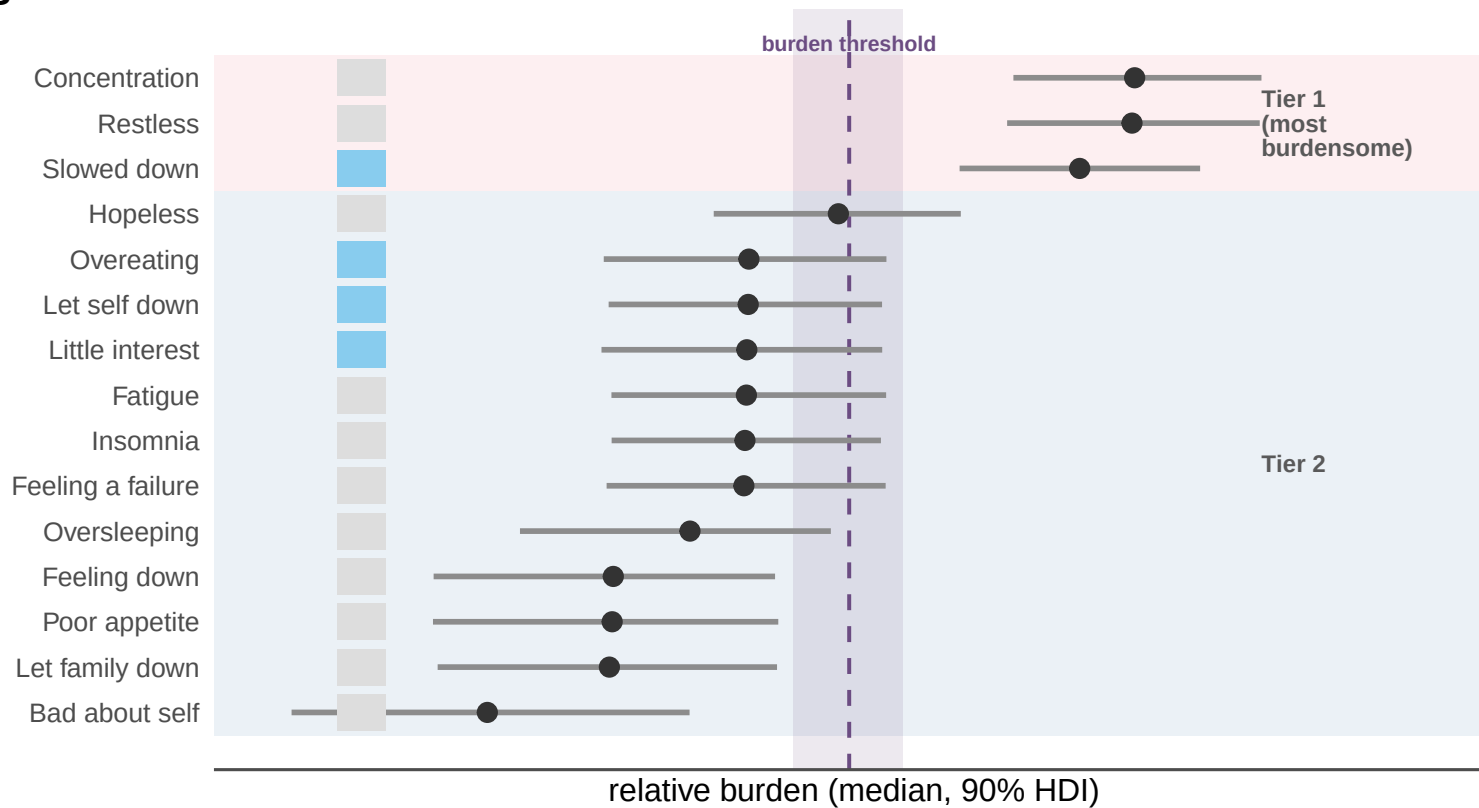

A Participant lqeojlx

Overall severity: MINIMAL (likert total 4/45)

Choice consistency: 55% – low – choices near random; rely on severity score and interview

Burden threshold: 4 of 15 symptoms clear it [3–6] – selective – only the most burdensome symptoms clear the bar

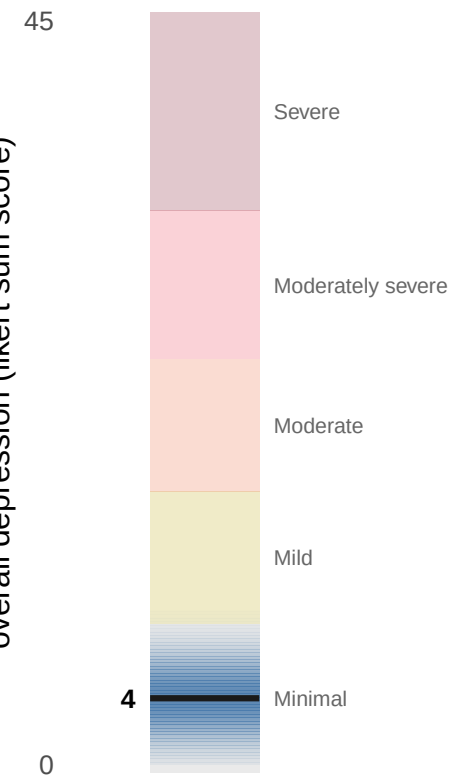

B

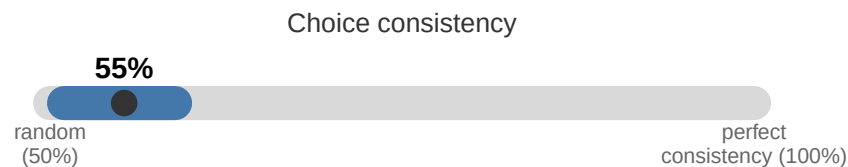

self-rated frequency Not at all Several days More than half the days Nearly every day

positions are relative to this person's own symptoms; items within a tier are statistically tied

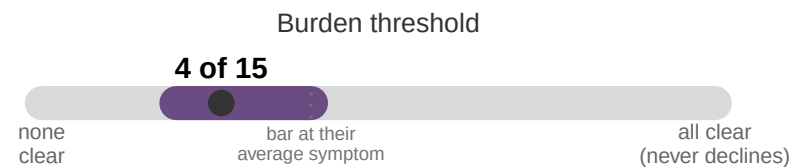

C

D

E

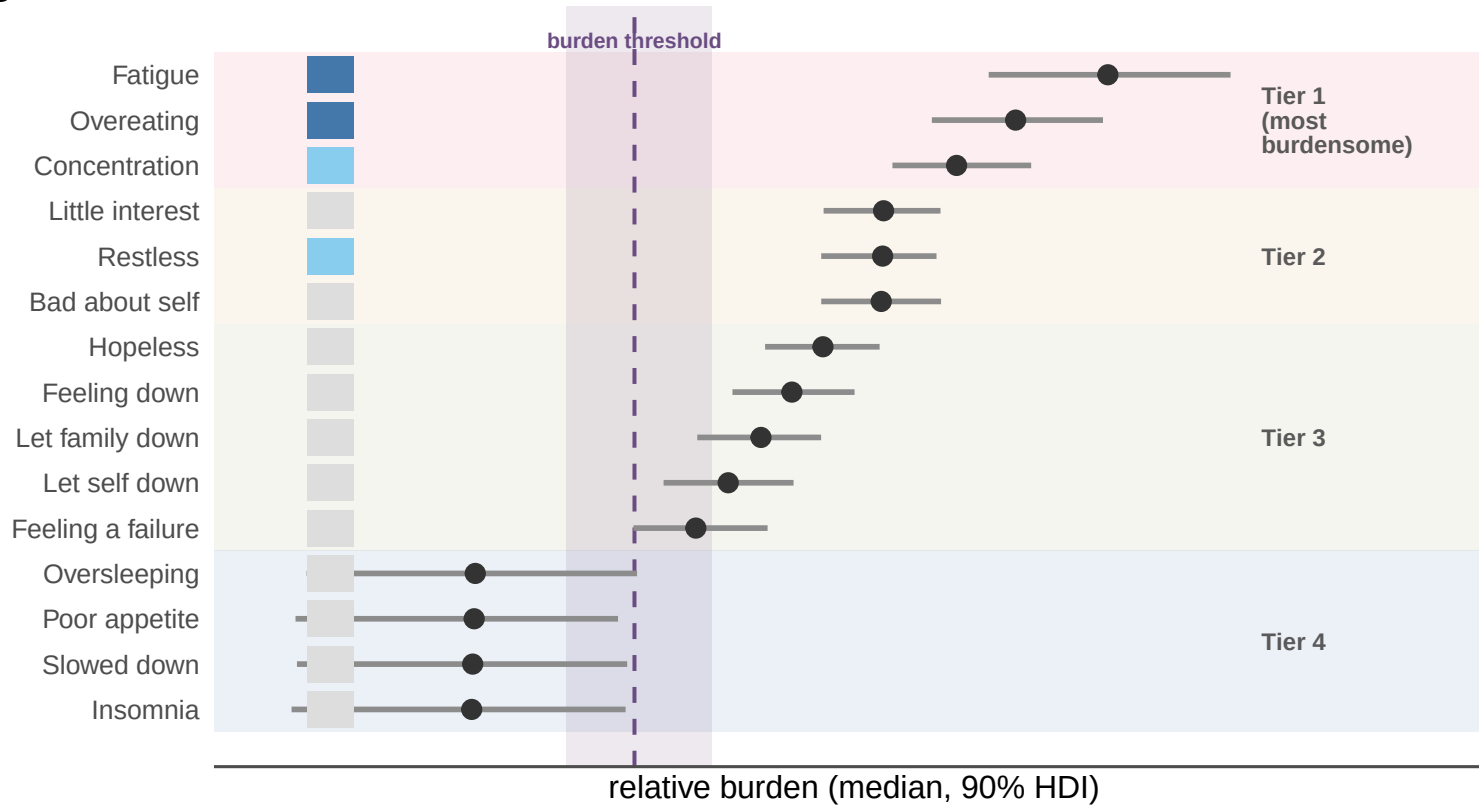

A

Participant p3j7wasb

Overall severity: MINIMAL (likert total 6/45)

Choice consistency: 94% – high – ordering can be discussed with confidence

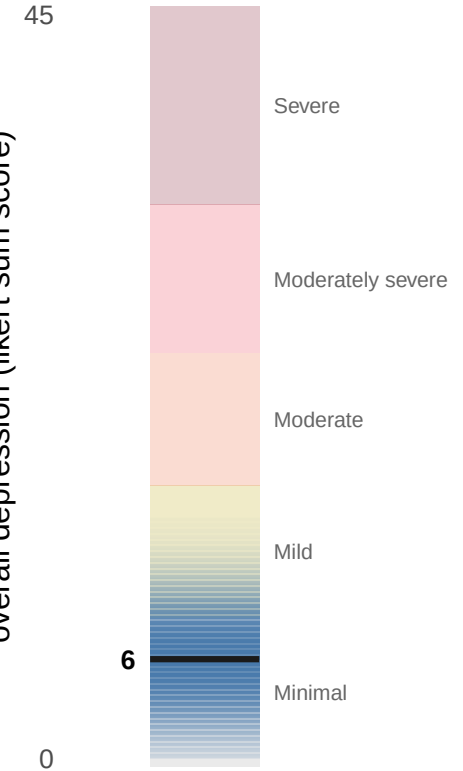

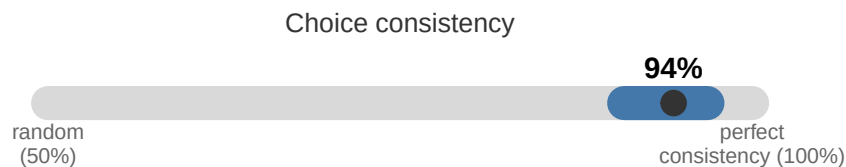

Burden threshold: 11 of 15 symptoms clear it [11–11] – balanced – concern reaches past their average symptom

B

self-rated frequency

Frequency	Color
Not at all	Grey
Several days	Light blue
More than half the days	Dark blue
Nearly every day	Dark blue

positions are relative to this person's own symptoms; items within a tier are statistically tied

C**D****E**

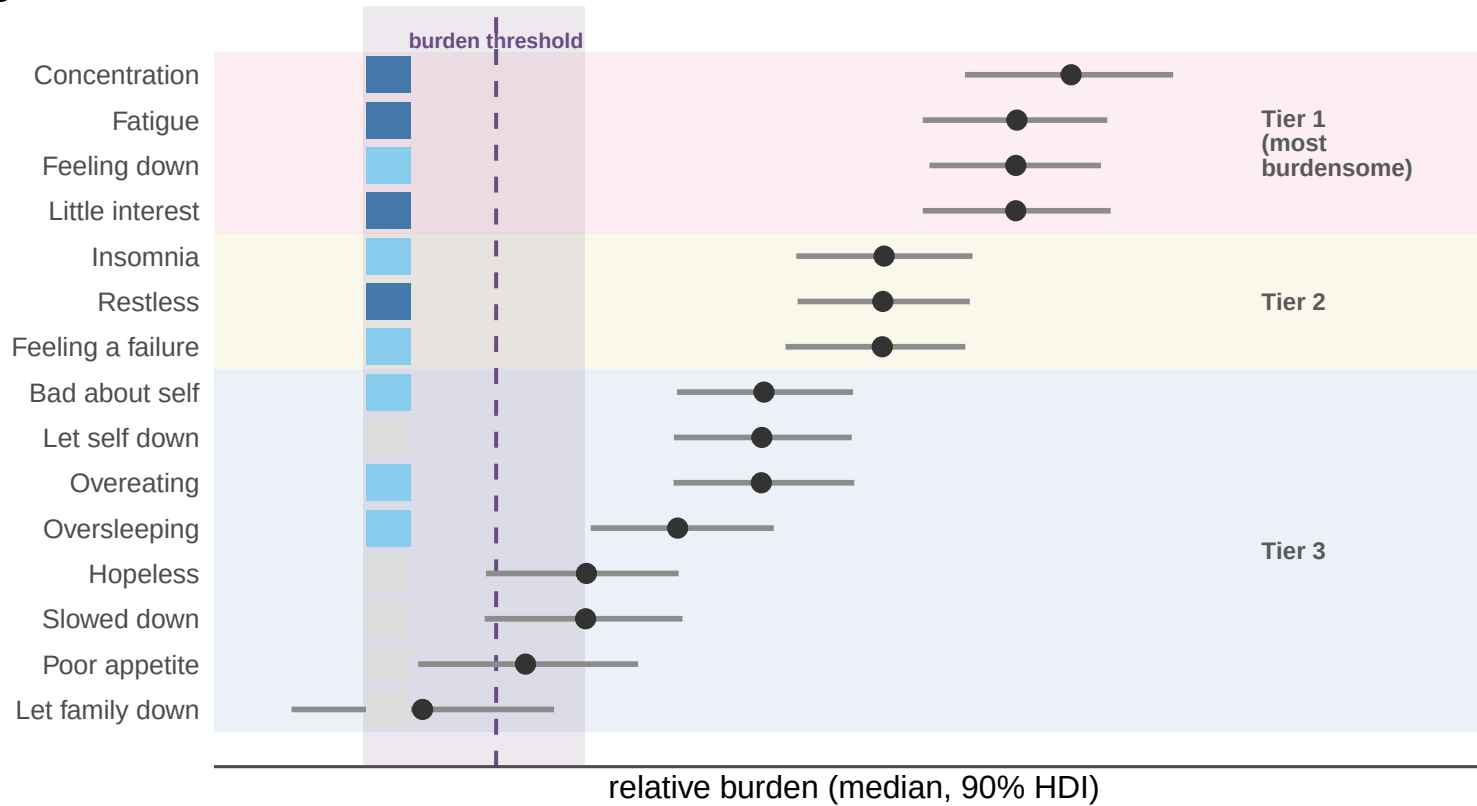

A

Participant pc4u2ske

Overall severity: MILD (likert total 14/45)

Choice consistency: 84% – moderate – broad tiers informative, exact positions less so

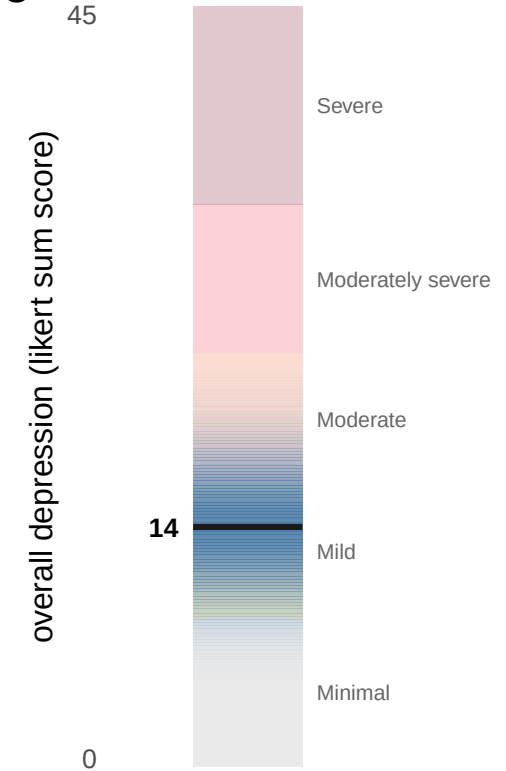

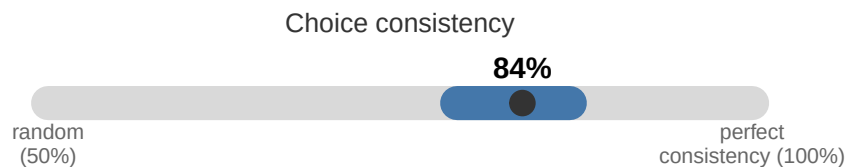

Burden threshold: 14 of 15 symptoms clear it [12–15] – permissive – nearly every symptom clears the bar

B

self-rated frequency

Frequency	Color
Not at all	Grey
Several days	Light Blue
More than half the days	Dark Blue
Nearly every day	Dark Blue

positions are relative to this person's own symptoms; items within a tier are statistically tied

C**D****E**

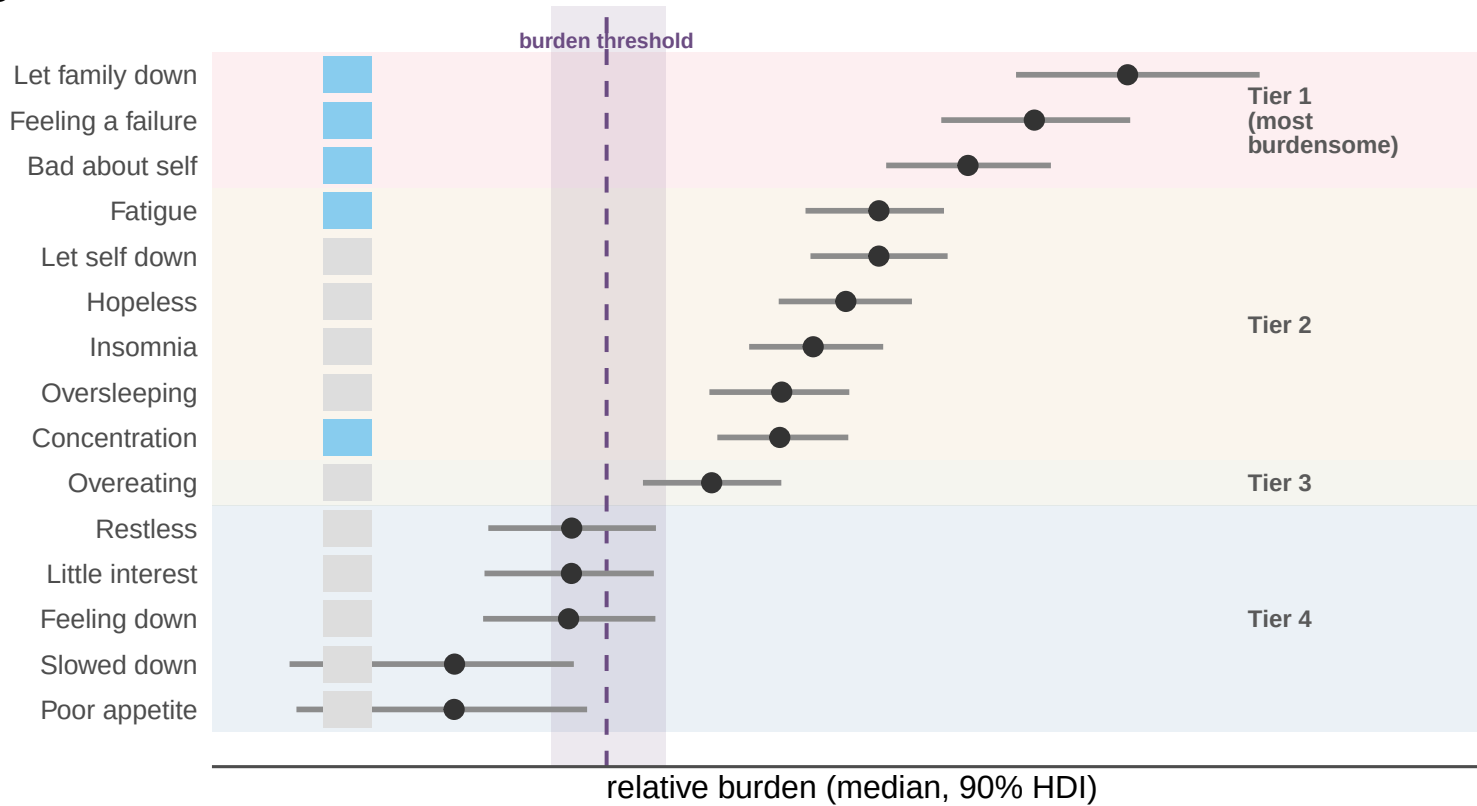

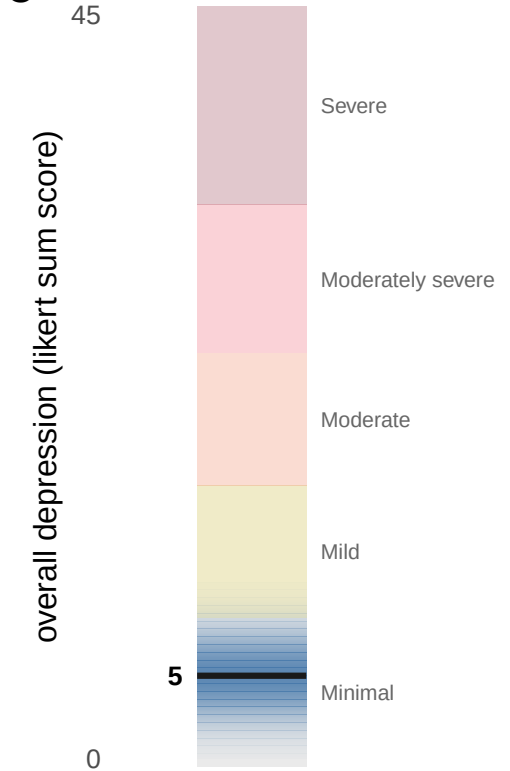

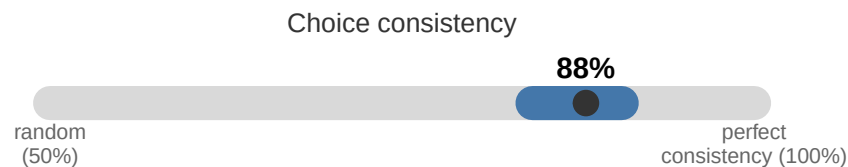

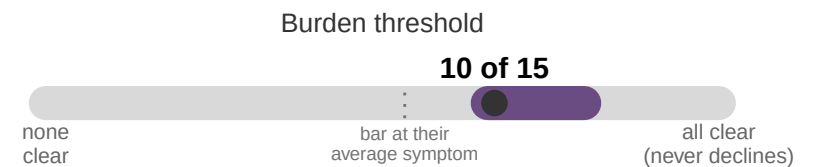

A

Participant s2tddlj3

Overall severity: MINIMAL (likert total 5/45)

Choice consistency: 88% – high – ordering can be discussed with confidence

Burden threshold: 10 of 15 symptoms clear it [10–12] – balanced – concern reaches past their average symptom

B**C****D****E**

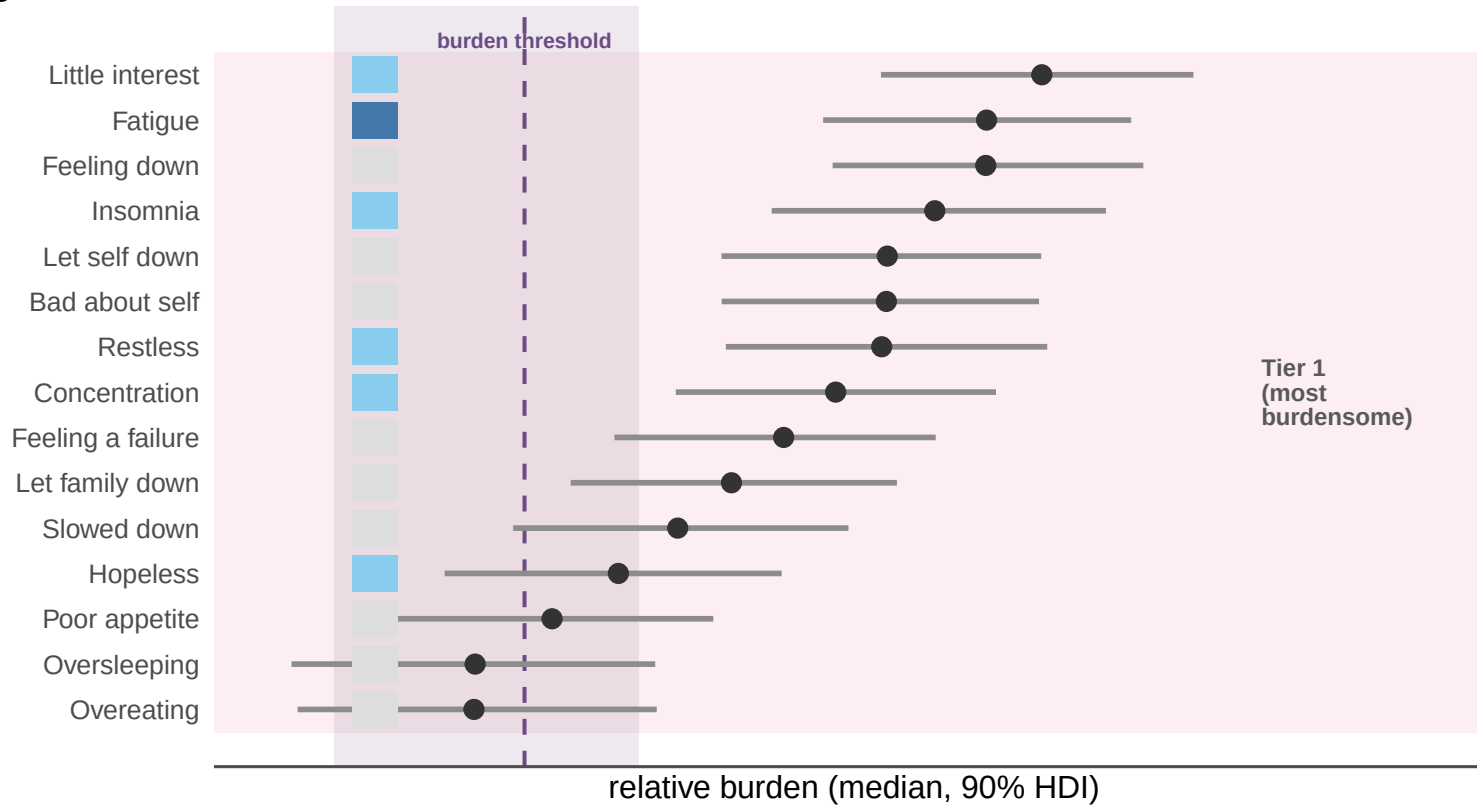

A

Participant sdf2mq45

Overall severity: MINIMAL (likert total 7/45)

Choice consistency: 54% – low – choices near random; rely on severity score and interview

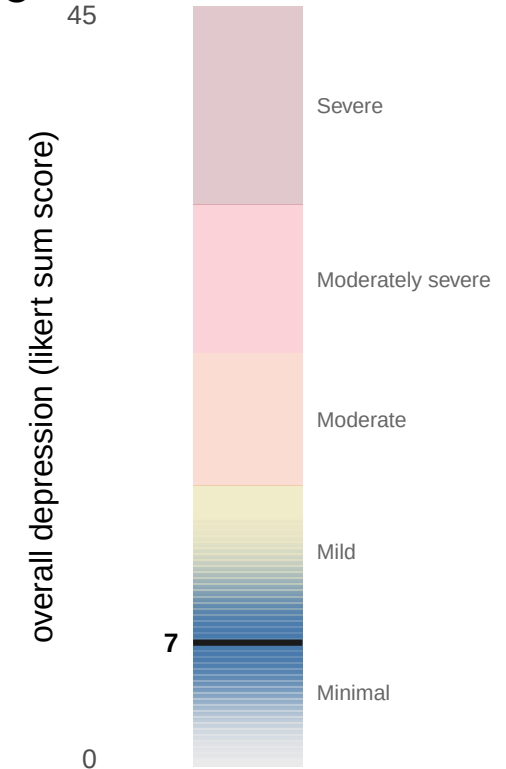

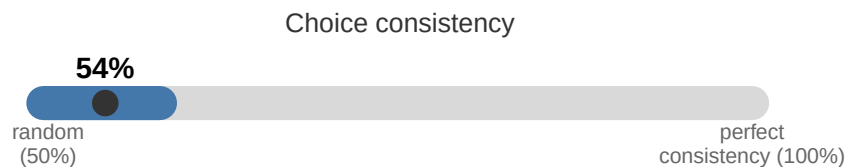

Burden threshold: 13 of 15 symptoms clear it [11–15] – permissive – nearly every symptom clears the bar

B

self-rated frequency

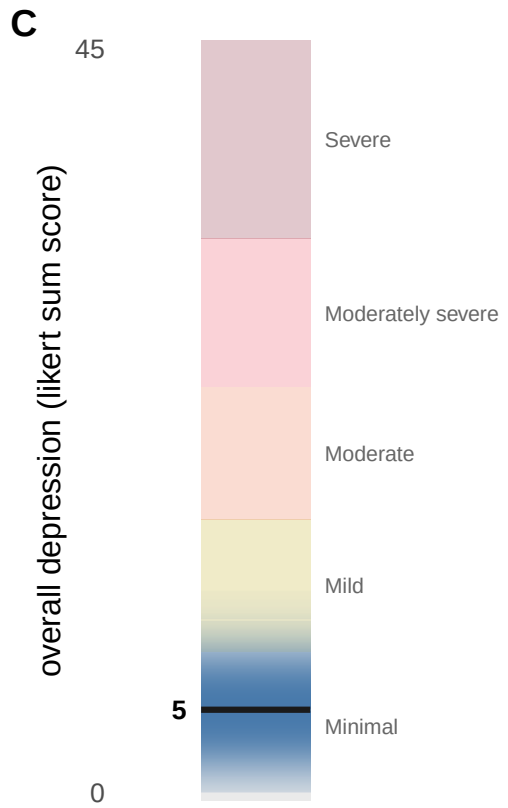

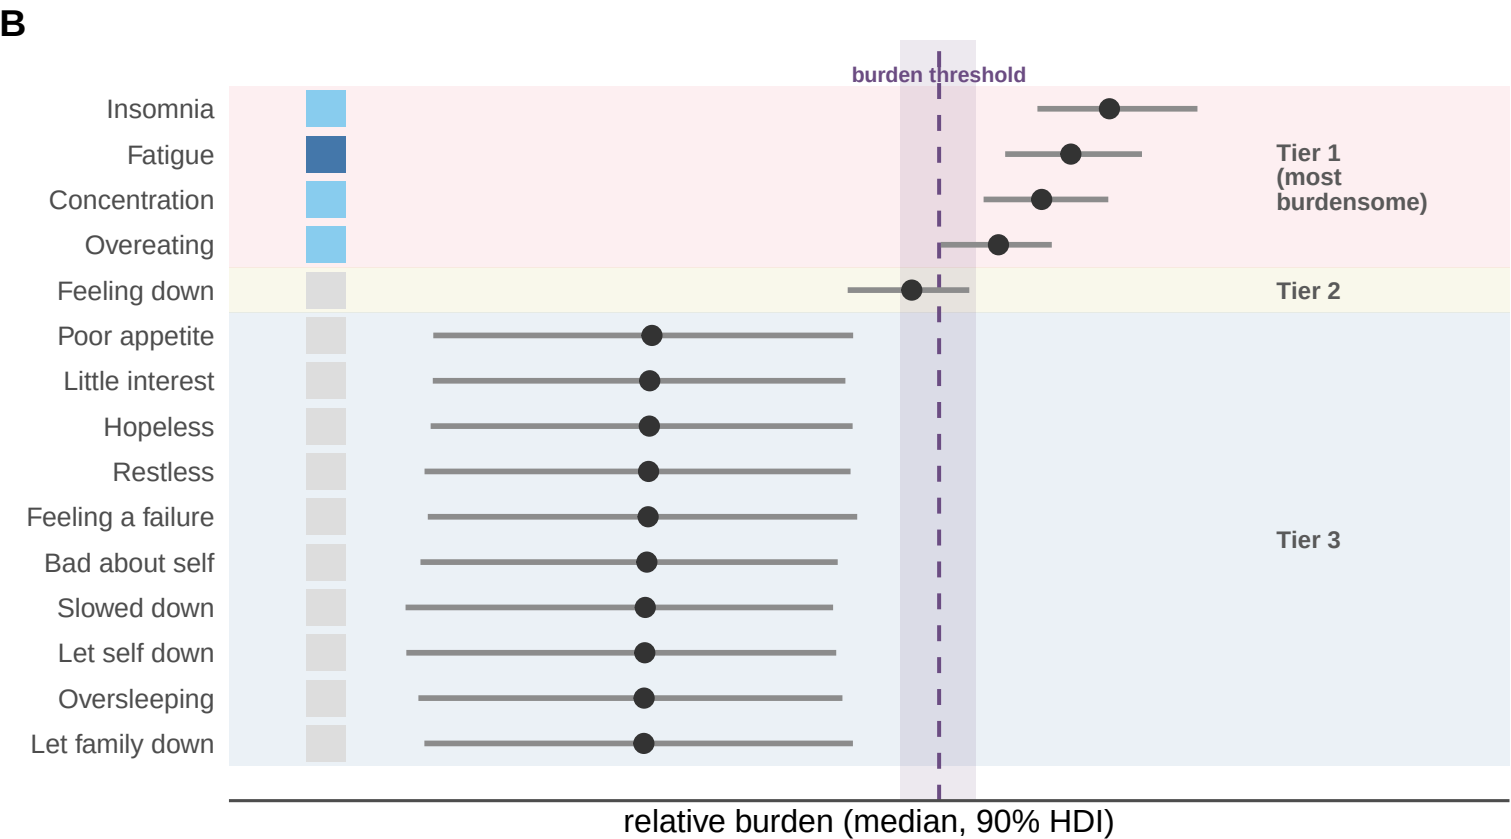

Not at all Several days More than half the days Nearly every day

positions are relative to this person's own symptoms; items within a tier are statistically tied

C**D****E**

A Participant ty6pnexp

Overall severity: MINIMAL (likert total 5/45)
Choice consistency: 83% – moderate – broad tiers informative, exact positions less so
Burden threshold: 4 of 15 symptoms clear it [4–5] – selective – only the most burdensome symptoms clear the bar

self-rated frequency Not at all Several days More than half the days Nearly every day

positions are relative to this person's own symptoms; items within a tier are statistically tied
